## Ten Minute August

## Identifying your patients on omeprazole

This audit is designed to identify people in your practice taking omeprazole with the aim of considering them for "Review and Reduce" (see page 18) when they need a prescription renewal.

If you are using MedTech you simply complete the query builder form as shown on the opposite page.

Select items from the box on the left and transfer them to the appropriate box on the right of the screen.

## Identifying your patients on omeprazole Medtech 32 Query Builder
